

Parsa Kazemi

Date of birth: 12/06/1999 | **Nationality:** Iranian | **Gender:** Male | **Phone:** (+39) 3517330836 (Mobile) | **Email address:** wixloop.contact@gmail.com | **LinkedIn:** bit.ly/3Dya4tN | **Github:** bit.ly/3jttb1k | **Address:** Messina, Italy (Home)

● ABOUT MYSELF

Data Scientist & ML Engineer with a strong foundation in Computer Software Engineering and a Master's focus on Big Data and Artificial Intelligence. Specialized in real network analysis, real-time stream processing (Kafka/Spark) and Machine Learning. Proven track record of maintaining a **28.89/30 weighted average** at the University of Messina while developing scalable AI solutions

● EDUCATION & TRAINING

14/09/2023 - Current - MESSINA, ITALY

MASTER OF SCIENCE IN DATA SCIENCE- UNIVERSITY OF MESSINA

Final grade: 28.89 / 30 | **Thesis:** Scalable Real-Time Hate Speech- A Big Data Architecture utilizing Stream Processing and Deep Learning with Automated AI Agents - using Kafka, Spark, and Kibana to process live data from YouTube/X, utilizing BERT models with Agentic AI for improved classification accuracy (~80%).

09/2017 - 08/2022 - ZANJAN, IRAN

GOVERNMENT SCHOLARSHIP FOR BACHELOR OF COMPUTER SOFTWARE ENGINEERING - ZANJAN UNIVERSITY

Final grade: 14.44 / 20 | **Thesis:** Smart Door Access System (grade : 19.25 /20) | **Address:** University Boulevard, Zanjan University faculty of Engineering | **Website:** www.znu.ac.ir

09/2016 - 06/2017 - QAZVIN, IRAN

GOVERNMENT SCHOLARSHIP FOR PRE-UNIVERSITY OF MATHEMATICAL SCIENCES - SADRA 1- BOARD OF TRUSTEES HIGH SCHOOL

Final grade: 16.73 / 20 | **Address:** District 2

09/2014 - 06/2016 - QAZVIN, IRAN

GOVERNMENT SCHOLARSHIP FOR DIPLOMA OF MATHEMATICS AND PHYSICS - SADRA 1- BOARD OF TRUSTEES HIGH SCHOOL

Final grade: 18.29 /20 | **Address:** District 2

● **LANGUAGE SKILLS**

Mother tongue(s): **PERSIAN**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	B2	C2	C2	C1

● **PROJECTS**

2020 - 2022

Smart Door Access System The project uses facial recognition algorithms to automatically identify defined individuals and grant them access through a door. Developed as my final undergraduate project using React Native, the system enables remote management of the camera, including adding or removing members, changing entry status, and monitoring the history of door openings. The technology is designed to identify individuals even when wearing masks or with new facial features. Our startup team at Faviran developed this project with a focus on low-cost and accessible hardware. During the project, my responsibilities included application development, presentation, and design of advertisement assets.

30/04/2023 - 10/05/2023

Predictive Modeling: PvP Match Outcomes in WoW Conducted statistical inference on player metadata to determine win-rate predictors, using Python, Statistical Inference, R. Identified a balanced distribution across class/race combinations, specifically isolating **Blood Death Knight** tanks as the highest win-rate outlier.

Heuristic Optimization_Bat Colony Algorithm Write here the mplemented a bio-inspired Bat Colony Optimization to solve NP-hard problems like the N-Queen challenge, comparing performance against traditional backtracking.description

Deep Learning_Multi_Class Animal_Classification Developed and trained a Deep Learning model for image recognition using CNN architectures to classify diverse animal species.

● **RECOMMENDATIONS**

Ali Amiri university supervisor

Ali Amiri served as my Bachelor's final project supervisor for a period of one and a half years. I would be happy to provide a scanned copy of the recommendation letter he wrote for me upon request. Alternatively, you may also contact him directly to validate my work and performance under his supervision.

Hadiseh poursheikh Ahandani Mentor,Advisor and Literary creation expert

Mrs. Poursheikh has been a mentor and advisor at the Institute for the Intellectual Development of Children and Young Adults for almost a decade. She has been my story writing master since childhood and has played a significant role in my personal and academic development. Her guidance and support have helped me achieve first place in a writing competition at the age of 16.

● **HOBBIES AND INTERESTS**

Writing Since high school, I have been passionate about writing short stories, daily blogs, and novels. I joined a cultural and artistic center to develop my writing skills and continue to work there today. My literary achievements include multiple national awards and recognitions, including first place in Razavi's short story writing competition and third place in Razavi's puppet show competition.

Content Creation Manage a dedicated YouTube channel focused on the psychological and social transition from someone with social anxiety to the person i am today. Utilize Text-to-Speech (TTS) technology to produce high quality audiobooks, focusing on literature related to mental health and personal healing.

Maintain a comprehensive personal portfolio website that serves as a multi-language archive of journals, travel maps, and professional milestones, integrating background audio and interactive UX elements
